

NEW YORK MAYOR CARRIES BATTLE INTO HIGH COURT

OBTAINS ORDER TYING HANDS OF GOV. ROOSEVELT

Governor Must Prove His Right To Pass On Mayor's Case

Executive Chamber, Albany, N. Y., Aug. 18.—(AP)—Mayor James J. Walker of America's largest city today carried his fight against ouster proceedings into the courts, obtaining an order requiring Governor Roosevelt to defend his right to continue a hearing and pass upon the fitness of Mr. Walker to retain his \$40,000 a year position.

As John J. Curtis, chief counsel for Walker, argued before Roosevelt in Albany for a dismissal of the 15 ouster charges against his client, a legal aid in Kingston obtained a supreme court order requiring the governor to show cause why his hands should not be tied by a permanent writ of prohibition. The governor was enjoined from ruling on Walker until the court tested his authority.

The court order was issued by Supreme Court Justice John T. Loughran who made it returnable tomorrow before Justice Ellis J. Staley in Albany. Mr. Walker is represented by John J. Glynn, nephew of former Governor Alfred E. Smith. Mr. Roosevelt's chief counsel is the Democratic presidential nominee.

Curtain, talking for four hours covered ten of the charges. He agreed to dispose of the remaining five within an hour and a half tomorrow. Tomorrow's session, the tenth of the hearing, will open at 10 a. m. at the standard time, two hours after the supreme court meets to consider the Walker petition.

In his petition challenging the governor's power, Walker said he had been denied his constitutional rights before the Hottelster legislative committee and by Mr. Roosevelt's charges outlined.

The mayor argued that ten of the charges referred to his first administration were outlined.

The states were Ohio, New York, Michigan, Wisconsin, Illinois, Maryland, California and Nevada.

Women Golfers Objecting To Police Glares

Chicago, Aug. 18.—(AP)—Ten women golfers who assert they have been turned into snobs by the withering glares of Lincoln park policemen have gone into court to squelch the glares and procure use of the new park golf course.

"Some of my clients are really good golfers," their attorney, Robert Scher, explained today when he filed suit against park officials, "but they get nervous when a policeman stands behind them and yells they'll have to get off the course if they dig the turf. It's an outrage because these people are all taxpayers and no policeman has the right to glare at them and make them miss their shots."

Harry Albright, park supervisor of recreation, however, promised to stymie the alleged dubs' claims by procuring the banning of "good" golfers in the pending court fight.

"There have been dozens of complaints," he said, "that dubs were tripping the course to pieces. That's why we have watchers at the first hole and make the dubs get off the new course. The new course, I am afraid, is on filled in land and is the equal of most private club courses. Dubs can play just as well on the old course."

The court order was issued by Supreme Court Justice John T. Loughran who made it returnable tomorrow before Justice Ellis J. Staley in Albany. Mr. Walker is represented by John J. Glynn, nephew of former Governor Alfred E. Smith. Mr. Roosevelt's chief counsel is the Democratic presidential nominee.

Tomorrow's session, the tenth of the hearing, will open at 10 a. m. at the standard time, two hours after the supreme court meets to consider the Walker petition.

CHARLES CURTIS IS NOTIFIED OF HIS NOMINATION

Vice - President Will Stand Upon Party Platform

By Milo M. Thompson,
Associated Press Staff Writer.
State Capitol, Topeka, Kas., Aug. 18.—(AP)—Vice President Charles Curtis stood today on the shaded north steps of the Kansas state house and received official notification of his nomination as the Republican party's candidate for vice president and told visiting party leaders and his Kansas neighbors.

"I stand upon the party platform. I approve Mr. Hoover's admirable statement of Republican principles. I know of no reason for the people criticizing the party under whose policies our nation has become the greatest and most powerful in the world. Personally, I am opposed to the return of the saloon and I am opposed to the repeal of the eighteenth amendment."

A crowd of more than 5,000 had gathered beneath aged elms to hear what "Charley" Curtis of historically dry and agricultural Kansas would say about prohibition, tariff, the depression and the Republican record in bidding for reelection.

They heard Senator L. J. Dickinson of Iowa, keynote of the Republican national convention and chairman of the nomination committee, extol the man who had represented Kansas for 35 years in Congress, as "one fixed in fundamentals of government, who knows the interests of our people in this valley, who has an abiding faith in our own spaces, a firm grasp on our tribulations, who is seasoned with service, polished in the art of leadership."

And they heard the vice president, his face turned toward the site of the log cabin in which he was born across the Kaw river in North Topeka, declare his opposition to repeal of the eighteenth amendment, his faith in tariff protection, his assurance that America will be the first nation to recover from the financial storms and his faith in Herbert Hoover.

The man who, 60 years ago, hiked 75 miles to bring help for the Kaw tribes of Indians against raiding Cheyennes, was carefully dressed in a dark coat and white trousers, wearing a striped tie and a flower at his lapel.

The vice president brought cheers, whistling and applause from the citizens of the state of Carrie Nation when he opened his reference to the prohibition subject with Washington's statement, "The constitution is not changed by an explicit and authentic act of the whole people. It is sacredly obligatory upon all."

"I believe in meeting the issue squarely: x x x Personally, x x x I am not in favor of honesty and fairness. However, in our laws, tariff and immigration he termed it fortunate 'in these times of world wide liquidation, stagnation and readjustment,' that there was in the 'Continued on Page Eight'

GASOLINE, BANK CHECKS BRING IN REVENUE

Produce More Than A Million And Half Dollars

Washington, Aug. 18.—(AP)—Bank checks and gasoline led the way in July in producing the largest amounts of revenue from the special excise and miscellaneous levies in the new billion dollar revenue act.

Though covering only the last nine days of June, the treasury reported the two-cent tax on bank checks produced \$1,004,267, while the one-cent gasoline levy brought in \$539,461.

Next was the brewers' malt, malt and grape concentrates tax, which produced \$221,359; tires and tubes, \$96,037, and soft drinks, \$89,569.

The three-cent tax on automobiles and motorcycles returned \$47,629; the five-cent levy on radios, \$32,843, and the three-cent levy on electrical energy \$32,196.

The amount of taxes was small and while credited to July receipts actually collected that collected for the last nine days of June and what the internal revenue bureau termed a "drizzle of current taxes" during July.

Most of the manufacturers' excise and miscellaneous taxes are payable the last day of the month for the preceding month, except for the total actually due for July will not be paid into the treasury until the last day of August.

TROOPS MAY BE SENT INTO TAYLORVILLE TO PREVENT DISTURBANCE

PICCARD GAZES ON EARTH FROM HIGH ALTITUDE

Lands Safely After 10 Mile Flight Into Air

By R. G. Hadfield,
Associated Press Staff Writer.
Cavallaro Di Monzamban, Italy, Aug. 18.—(AP)—Auguste Piccard and Max Cosyns came down to earth this afternoon after having gazed on the world from the greatest altitude ever attained by man—more than 10 miles.

When they landed they were somewhat shaky, very tired and timidly modest. Neither was in a mood to accept applause.

Professor Piccard made certain that the balloon which had taken him into the stratosphere was well cared for and that his delicate scientific instruments which may have recorded evidence to indicate whether the universe is dying or immortal, were safe.

Then he telephoned his wife, who until recently had been reluctant about allowing him to repeat the dangers he encountered on his first stratosphere flight last year. After that he revealed a little about his amazing experience.

He said that three hours after they took off this morning from Dübendorf, across the Alps in Switzerland, they reached their maximum height. From that vantage point the world was a strange looking place. Landmarks were indistinct and maps were of little value.

Only the large lakes below him served to indicate to Professor Piccard exactly what part of the earth he was over. He recognized Lake Garda, 12 miles northwest of this village, and decided to land. It took him more than two hours to bring down his balloon.

Well Satisfied
"We are very well satisfied with our flight," the professor said, while hundreds of cheering farmers stood about staring at men who had been far above the rain and the clouds in a light aluminum ball attached to a balloon.

Professor Piccard, 49 years old, lean, his head crowned by a shaggy mass of hair and his 25-year-old assistant, took off at 5:06 o'clock this morning (10:06 p. m. Wednesday, central standard time) at Dübendorf, on the other side of the Alps in Switzerland. They were in the air about 12 hours.

Michigan Man's Love of Animals "Hits New Low"

Battle Creek, Mich., Aug. 18.—(AP)—Love of dumb animals hit a new low today in the house of L. J. Warren, who passes out handbills.

On Meacham Avenue a cat scratched his hand. On Grand Circle Avenue a goat knocked him down. On Rhimes street a poodle bit his leg, and on Harris street a police dog chewed his arm.

John Robinson, desk sergeant at police headquarters where Warren complained, promised that if a lion charges him, police will take immediate action.

Fascist Leader Says

Berchtesgaden, Bavaria, Germany, Aug. 18.—Adolf Hitler, leader of Germany's 13,700,000 Fascist National Socialists, declared today he had no intention of marching on Berlin.

"Why should I?" he said. "I am the German people. The question isn't whether I'll march on Berlin, but rather who will march to march out of Berlin."

High up in the Bavarian mountains, 107 miles from Munich, Hitler is calmly awaiting further political developments. He is certain that no matter what cabinet is established after the Reichstag meets August 30 his Nazis will have at least 75 per cent representation in the government.

15,000 MINERS GATHERING IN CHRISTIAN CO.

Coal Diggers Plan To Picket All Mines In District

Taylorville, Ill., Aug. 18.—(AP)—A grim and motley throng of some 15,000 central and southern Illinois miners fighting against a reduced wage scale pushed plans tonight to stop all Christian county mine operations despite the ordered movement of troops from Camp Grant, the trouble area.

Leaders who brought them into the county during the day to discourage several hundred miners working under the scale from returning to the tipples in the morning declared arrival of the four national guard units from Springfield and Decatur—each within 30 miles of Taylorville—to be on hand at an instant's notice. Chief Walter Moody of the Illinois state highway police was reported to have ordered all available men into Christian county.

Food and shelter was the prime concern tonight of the "marchers on Taylorville." Many had come with their wives and children and sought housing for the night. Others were penniless and begged old bread and other means of bare subsistence. Peasants were sprawled on blankets along roads and fields under the open sky.

Hold Mass Meeting
A mass meeting—the second since the caravans of diggers in autos and trucks invaded the county—was held in the baseball park at Kincaid, where the miners converged after starting from downstate Macoupin county points and Springfield. Their spirits were not as high as when they set out, flags flying and autos decorated with bunting.

The miners were grimly determined, however, to remain as long as their leaders thought it necessary. Dan McGill, of Springfield, one of the chieftains, announced it would be "about four days." Picketing at all the tipples, he said, would be peaceful and the pickets would stay off mine property. Peasants officials said they would not interfere with the picketing and would do everything in their power to prevent bloodshed.

Six national guard planes ordered here by Governor Emmerson on request of Christian county authorities returned to Rockford tonight—their task of reconnoitering over the strike overhead all day as the strange processions of diggers advanced on the city.

The roar of the planes drowned out loud shouts of resentment came from the diggers. McGill, however, resumed speaking as soon as the fliers departed and quitted the crowd.

A boom for Kincaid storekeepers who sold out all available foodstuffs within a few hours and were compelled to send to Taylorville for more. They sold bread at a penny a slice to the "who could not afford to buy loaves."

HUNT KILLER OF CHICAGO BUTCHER

Chicago, Aug. 18.—(AP)—Irving Passin, 31, was found shot to death in his brother's butcher shop today and police set out to find a man believed to have been implicated in a \$1,700 tobacco truck hijacking for which Passin had been questioned.

The man sought, police said, is Jack Webber, 30. He was sought in connection with the tobacco theft, but never arrested. Passin and another man were questioned about the robbery, but released when two other men confessed, police said, and implicated Webber. Officials said they believed Webber might have thought Passin had implicated him.

ENDURANCE FLIERS NEAR THEIR GOAL

Valley Stream, N. Y., Aug. 18.—(AP)—Less than a day from their goal—the women's endurance flight record was set today by Mrs. Frances Louise Thaden continued to soar over Curtis Field tonight.

Rain pelted their plans and even worse weather was expected, but the women indicated in notes dropped to the ground they had no intention of coming down—not even tomorrow afternoon. If they remain aloft, they will equal the record of 122 hours and 20 minutes at 1:20 p. m. Eastern standard time, tomorrow, and they will be the new record holders one hour later.

SILAS H. STRAWN URGES ELECTION HERBERT HOOVER

Claims President's Speech of Acceptance Was Practical

Chicago, Aug. 18.—(AP)—Re-election of President Herbert Hoover on his record before and after becoming the nation's chief executive, and specifically because of his prohibition stand, was urged today by Silas H. Strawn, chairman of the Illinois state finance committee of the Republican national committee, and former chairman of the United States chamber of commerce.

Addressing a luncheon at the committee's headquarters here, Strawn quoted that part of the president's acceptance speech pertaining to the amendment, terming it a "full and frank" expression, "offering practical suggestions which, if adopted by congress, should meet the approval of the requisite number of states."

Strawn outlined the pre-presidential career of President Hoover as a chronological proof of his fitness for office and cited as efforts to maintain the financial integrity of the government during his tenure his opposition to the defeated bonus bill; his "preservation of the principles of our protective tariff"; his insistence upon balancing the national budget; his proposal of the German war debt moratorium, and his sponsorship of the reconstruction finance corporation.

The luncheon, given by Strawn as a preliminary to the opening of the fund-raising drive, was termed by party leaders presenting a significant pre-campaign gathering.

Sicilian Mealybug Found to be Foe of Mexican Pest

Urbana, Ill., Aug. 17.—(Special)—The Mexican Mealybug, dread pest of flowers and garden crops, has a new enemy which may destroy it and save Illinois greenhouse growers a great deal of money, according to a statement here today by two entomologists of the State Natural History Survey located on the University of Illinois campus.

The Sicilian Mealybug parasite, first brought to this country to fight the Citrus mealybug, has been found living on the Mexican Mealybug. The pest may now be fought by liberating numbers of the parasites among the mealybugs, say Dr. Herbert Dozier and C. C. Compton, discoverers of the phenomenon.

In April Compton reared some parasites taken from the Mexican Mealybug and last week offered some specimens for identification to Dr. Dozier, former chief entomologist of Haiti and now on temporary appointment with the Survey. The parasite was pronounced to be the Sicilian Mealybug parasite which destroys the mealybug by piercing its body and laying an egg in the cavity. The eggs hatch and the young consume the body of their host.

Dr. Dozier said that occurrence of the parasite on the Mexican Mealybug is unusual. "It was introduced from the Mediterranean region into California in 1914 and established to combat the Citrus Mealybug. From there it was sent to Florida in 1917. Its appearance in Illinois in abundance and attacking the Mexican Mealybug seems rather surprising, and established the record of a new host against which the valuable little insect can be used."

Mr. Compton plans soon to introduce the parasite into greenhouses infested with mealybugs at first experimentally, and if successful, permanently.

Dr. and Mrs. A. L. Adams, have gone to Chicago for a visit of several days.

Delegates from the Jacksonville Post of the American Legion have returned from the state convention which was held recently in Danville, at which each of the local delegates played a part in the various committees of the convention.

Lawrence T. Oxley, commander of the local post, was a member of the resolutions committee which considered many items dealing with the policy of the organization. Frank Robinson, adjutant of the local chapter, was a member of the committee which heard the application of one city for the convention next year. Rockford was the only bidder for the meeting, but there was some talk of investigating the report that Springfield would play host to the Legionnaires next year.

The other two delegates were Frank Vannier, who served on the legislative committee, and Wilbur Rogers, who was a member of the rehabilitation committee. Most of the delegates and visitors from this city returned early this week. Mr. Rogers went on to Chicago for a short vacation before returning to this city.

The convention this year was marked by smaller attendance than in years past, but the interest was just as keen as always.

A Home Without Telephone Service Can Be Mighty Like a Prison

The house without a telephone has no quick communication with the outside world. There is no cheery ring of a friendly "telephone visit"—no happy, sudden invitation—no pleasant, timely exchange of greetings—and no immediate news of the "away from home" members of the family or the old folks.

And this home is apt to be mighty like a prison. Like a prison, too, it may affect the health of the household—because there are so few outside interests. Make sure your home is healthy and happy with a telephone. Just call our office and we'll arrange for it.

HICKORY CHURCH HAS ANNUAL CHICKEN FRY

Chandlerville, Aug. 18.—(Special)—Hickory Presbyterian church held its annual chicken fry supper on Tuesday evening on the manse lawn. Tables were set and cafeteria service arranged ready for 5 o'clock opening. Baskets of luxurious garden flowers decorated the grounds with bowls of marigolds, zinnias and tuberoses on each table. Ladies in charge of the evening included Mrs. J. O. Taylor, Mrs. John Taylor, Miss Maude Schaad, Miss Kate Schaad, Mrs. Herschall Wilson, Mrs. A. Dunn, Mrs. H. Thievauch, Mrs. Triche, Miss Marjorie Taylor, Mrs. Iri Kroche, Miss Emma Smith, Mrs. Fred Kitchner and men of the church were in charge of the lawn lights and yard arrangements. Herschall Wilson acted as cashier.

An attractive plate supper offered generous servings of fried chicken, mashed potatoes and gravy, cottage cheese, pickles, buttered rolls, slaw and tomato salad, with iced tea or coffee. The dessert service was in charge of the young ladies of the church who offered watermelon, ice cream and assorted cakes.

A table running the length of the lawn centered with a basket of gladiolus was reserved by Beardstown Montgomery Ward young people who arrived in a group for an evening supper party. Smaller tables seated auto parties from Virginia and Chandlerville. The beautiful green setting for the out door service made the festival an unusually attractive one this year.

Morgan County Young Men's Jeffersonian Club will hold a meeting at Courthouse, Friday eve., 8 p. m. Public invited and especially the young men. Out of town speakers.

FIND ALL-BRAN HAS TWICE THE USABLE IRON IN LIVER

Also Furnishes "Bulk" and Vitamin B to Overcome Common Constipation

Liver is known as a good source of iron for the blood. Now, new tests show Kellogg's ALL-BRAN contains twice as much blood-building iron as an equal amount by weight of beef liver.

But more important still, laboratory experiments show ALL-BRAN provides "bulk" to exercise the intestines, and Vitamin B to tone the intestinal tract.

This means Kellogg's ALL-BRAN is a fine way to overcome constipation—with the headaches, loss of appetite and energy that so frequently result.

The "bulk" in ALL-BRAN is much like that of lettuce. Inside the body, it absorbs moisture, forming a soft mass, which gently clears the intestines of wastes. Special cooking processes make ALL-BRAN finer, milder, more palatable.

How much better than risking pills and drugs—so often habit-forming. Just eat two tablespoons of ALL-BRAN daily for most types of constipation. It is not habit-forming. If your intestinal trouble is not relieved this way, see your doctor.

Appetizing recipes on the red and green packages. At all grocers. Made by Kellogg in Battle Creek.

UNOILED ROADS IN COUNTY NOT GOOD, IS REPORT HERE

Unoled dirt roads in and near Jacksonville are not in very good condition today and should be avoided. Oiled roads are passable without any difficulty.

On US-36 between Jacksonville and Indianapolis three gravel detours are in effect in Indiana. These detours total about 23 miles but are passable in rainy weather. All of the Illinois road on this route is pavement. Distance 240 miles.

The shortest present route to St. Louis is via No. 3 to Alton, No. 89 to St. Louis. There is a detour over surfaced road in effect between Alton and St. Louis.

The most direct route to Chicago is via No. 10 to Springfield, No. 4 to Chicago, 230 miles. Several stretches of one-way traffic due to road repairing is encountered on this route.

The best route to Colorado Springs, Colo., is via US-36 to St. Joseph and thence to Topeka, Kansas, via No. 4 and 74-W and No. 10-No. 40 to Manhattan, Kansas, and US-40S to Colorado Springs. All good gravel or pavement.

To Kansas City the best route is via US-36 to Cameron, Mo., and thence on US-69 to Kansas City. All paved route and 300 miles from Jacksonville.

The detour on No. 24 near Pekin is passable during rainy weather but is very rough.

"We are in business for your health"

The Tines laughed aloud to see how cute a little monkey could be. The one that pulled Duncy in the cart was jumping round.

"Hey! Please go straight," scared Duncy cried. "I do not want a thrilling ride. If you keep racing here and there, 'twill flop me to the ground."

Then Scouty cried, "I have a hunch there's room enough for all this bunch. Please stop the monkey, Duncy, and we'll climb in by your side."

"Perhaps the monkey will then go slow. 'Twill be a real good load, you know." "All right! I'm game, if all of you are willing," Duncy cried.

Then to the monkey he yelled, "Whoa!" The monkey, however, didn't know that that meant stop, so on it went, much faster than before.

Poor Duncy! He was holding tight and "tusting things would end all right. Let's catch the monkey," Windy cried. And after it they tore.

Soon Coppy grabbed it by the tail and, my, but it let out a wail. "Come help me," shouted Coppy. "I don't want to injure it."

The others grabbed it by the paws and all turned out all right because the monkey stood real still and didn't fight with them a bit.

When they all were inside the cart, kind Coppy said, "Now you can start." And for a half an hour they had an interesting ride.

Then Duncy said, "Once more I'll try to drive alone. I'm sure that I can handle it all right this time." The others left his side.

The plan, however, brought a scare because the monkey began to tear. While it was going very fast a monkey cop stepped out.

The cop exclaimed, "Hey! Too much speed! A trip to court is what you need. You'll have to pay a fine before we let you go, no doubt." (Copyright, 1932, NEA Service, Inc.)

(Duncy appears before a monkey judge in the next story.)

OLD SALEM CHAUTAUQUA FOR 1933 IS ASSURED

The 34th annual assembly of the Old Salem Chautauqua came to a satisfactory ending Sunday. Sufficient guarantors' season tickets were subscribed to guarantee a program in 1933.

The board of directors acquired a complete and efficient scenic stage setting before the beginning of this year's program, consisting of a proscenium arch, front drop curtain, floor baize, interior frames, draperies and effecting stage lighting units. Old Salem patrons are grateful to the management for obtaining this adequate stage paraphernalia.

Grading and sanding the road from the hard road to Old Salem park beginning at the Sangamon river bridges is now being considered. It is the present intention to complete this work before the 1933 assembly takes place.

The trustees of the Mary E. Dickson Memorial Bridge fund and an engineer of designs from the Illinois State Department of Public Highways were looking over the route first of the week, preparatory to building the bridge. When completed, this bridge will connect the Old Salem State Park with the Old Salem Chautauqua Park.

LOCAL SCOUT HEAD AIDING OTHERS AT STATE FAIR CAMP

Springfield, Ill., Aug. 18.—(P)—Thirty-two Boy Scouts, members of troops from widely separated cities throughout the state, are encamped in Eagle Village at the State Fair grounds. Camp was opened Wednesday under the direction of A. J. Davis, executive of the Abraham Lincoln council. Robert Ellis of Jacksonville and James Swafford of Belleville.

The camp, following the practice of previous years, is divided into four patrols, each of which has its own officers and organization, just as each troop is composed of organized patrols. At stated intervals during each day, the troop will carry out a program of camp activities, to demonstrate the training which boys receive in Scouting.

This program consists of fire building by friction and by flint and steel, tent pitching, first aid, wall scaling, signaling, pyramid building, bridge building, drill, axe and knife throwing, rope spanning, whip cracking, archery and Indian dancing.

William Morgan, Harry Storey and Herbert Carter, scouts of this city, were present at the Eagle Scout village last night, and plan to remain there for several days.

CHESS CLUB WILL OPEN SEASON ON FRIDAY, AUG. 26

Plans for the coming season are being made by the Jacksonville Chess club. This organization was formed about a year ago and proved to be a successful experiment. Several matches were played during the past season and several star players were developed. There are many men in this city who play chess, and it is hoped this year to have them active in the club.

The club will open the season at the Y. M. C. A. on Friday evening, Aug. 26, and all men interested in chess are cordially invited to come and join the organization. The club now has about 20 members. On its roster all present members of the club are urged to attend a preliminary organization meeting Friday evening of this week at 7:30 o'clock at the "Y." This is a business meeting, at which it is

hoped to perfect plans for a membership drive.

Several who have been asked to join the club have said Saturday evening was not convenient for them to meet. This year the club will meet on the second and fourth Friday evenings of each month, and on the first, third and fifth Saturday evenings. In this way it is hoped to accommodate all who can and will play. This is the tentative plan at present.

It is planned also to run a chess column once each week in the local papers, the column to appear in the Thursday Courier and Friday Journal. Chess problems and perhaps the moves of a game will be published. The club wants all chess players of the city actively affiliated. Those who wish to learn the game are also invited to join, as there will be a club instructor to teach them the fundamentals of the game.

Seeds Buried in Ground for 30 Years Come to Life

Above are shown the numerous pots of seeds which federal seed experts unearthed at the Arlington experimental farm, near Washington, D. C., after being buried for 30 years. Inset at right shows how morning glory seed from the lot sprouted two days after they were dug up.

By NEA Service

Washington, Aug. 18.—The amazing ability of certain seeds to retain their vitality under the most unfavorable conditions has recently been demonstrated by experiments of the U. S. Department of Agriculture, in which seeds buried in the ground for 30 years sprouted in two days.

Results of these experiments are valuable in that they prove that seeds, especially weed seeds, retain their vitality after years of inactivity.

In 1902 workers in the department buried lots of more than 200 varieties of seed at varying depths on the Arlington experimental farm near here. The seeds were buried in small clay pots, filled with dirt. The first unearthing of these seed lots took place the following year, and since that time several tests have been made.

William Pierce of Rock Island transacted business here Wednesday. Louis Nunes of Springfield paid the city a visit Wednesday.

In 1923, the last test previous to the present one, 51 varieties from a total of 112 seeds germinated. This time 33 varieties have sprouted and most of these we usually consider weeds, although three common cultivated plants are represented. They are clover, celery and tobacco.

Some of the commonly known weeds which sprouted after spending 30 years in the ground are: foxtail, smartweed, willow-leaved dock, curled dock, broad-leaved dock, lamb's quarter, pokeweed, bindweed, wild morning glory, jimson weed, common plantain, ragweed and scotch thistle.

It is the plan of the department to dig up sample specimens at 10-year intervals, to determine just how long some of these weed seeds can stay in the ground and retain vitality enough to germinate.

Chicago Cubs Take Another Long Game From Braves 4-3; Phils Nip Cardinals Twice

Chicago, Aug. 18.—(AP)—The battle of extra innings raged on at Wrigley field today with the Cubs once more surviving to defeat the Boston Braves, 4 to 3 in 15 innings of brilliant and erratic baseball.

As the Boston defense cracked for the sixth time of the long battle to permit English, who had singled, and Cuyler, who had sacrificed, to reach third and second on a wild throw with nobody out, Riggs Stephenson stepped to the plate and hits "Socks" Seibold's first pitch to left field for the winning wallop of the game. The wild toss was made by Catcher Spohrer.

The overtime game extended the three game series between the two clubs to 43 innings with the Cubs now two and one half games in front of the idle Pittsburgh Pirates in the National League race, victors in all of them. They defeated the Braves, 4 to 3, in the first game on the tide of a four run rally in the ninth inning, captured yesterday's battle, 3 to 2 in 19 innings and came back to win in 15 today.

WATTY HOLM IS GIVEN RELEASE

St. Louis, Aug. 18.—(AP)—Watty Holm, who had been utility fielder with the St. Louis Cardinals for about a month this season, has been unconditionally released, it was announced today. His plans for the remainder of the season could not be learned.

Holm, who had been with the Cards one year before, was released because of a bad arm. After undergoing medical treatment, he signed up with Springfield in the Three-I League, but came to the Cardinals just a short time before the Springfield club folded up.

He was recruited by the Cards while their fielding staff was crippled by injuries.

INDEES TO BATTLE WHITE HALL SUNDAY

Having been struck out by the Weather Man for the past three Sundays, the Jacksonville Indees hope to continue their schedule this coming Sunday. Manager Frank Smith said last night.

The condition of the grounds and the weather both permitting, the Indees will open their deferred three game series with the White Hall Indees Sunday afternoon at the local South Side park.

Lashmet has returned to the Indee lineup, adding some much needed batting strength. Ray Zell is slated to climb on the mound for the local club, with Lewis being held in reserve should the visitors solve Zell's slants.

Day's Insurance Nine will play the Alexander club, beginning at 1:15, preceding the Indee-White Hall battle, thus assuring the fans of a good double-header.

Stumpf's Triple In 15th Inning Gives Red Sox Win Over St. Louis Browns 7-6

Boston, Aug. 18.—(AP)—The Boston Red Sox took a sensational 15-inning game from the Browns, 7 to 6, today to gain the edge in the three game series.

The deadlock was broken when Stumpf tripled off Bump Hadley and, after intentional passes were handed to Alexander and Oliver, scored on Rhyme's flyout to Schulte in deep left. St. Louis tied the score at 2-all in the ninth and the first of the extra thrills came in the 11th when both Levey and Marty McManus hit homers.

In the 14th, combinations of hits and errors gave each team three runs. The Browns made 19 hits against 12 for the Sox, but saw 15 runners stranded on base. Burns, Brown's first baseman, made five hits and fielded sensationally.

No Wonder Neighbors Shudder — Here's How Woman Fights Zoning Law in Residential Community

For five years Mrs. Daniel A. Warren, of Glen Ridge, N. J., vainly pleaded for a change in the town zoning law which would permit her to lease her home for a store or apartment house. When her appeal again was denied recently, she resorted to drastic protest. Clothes lines were strung about the unkempt porch and yard, and draped with long woolen underwear, as shown above. The house itself has been painted a glaring yellow with bright blue trim. Shuddering neighbors and a worried borough council are wondering what can be done about it.

1 KILLED AND 5 INJURED IN CAR COLLISION

Accident Occurs in Crestwood, Ill., Suburb

Chicago, Aug. 18.—(AP)—Ralph Elliott of Hoopston, Ill., was killed and five other persons were injured seriously today in an automobile collision in suburban Crestwood.

Riding with Elliott were his wife and Frank Holmes, Anna Schrader and Harold Swisher, all of Hoopston. Mrs. Elliott was reported near death in St. Francis hospital at Blue Island and the others were in serious condition.

Also injured probably fatally was Ralph Martignetti of Blue Island, driver of the other automobile.

No violence was reported and those ordered to stop shelling were reported doing so at once.

The Farmers Educational and Co-operative Union of America, sponsoring the holiday cooperatives most of the corn being shelled was part of the crop on which the government issued loans at 30 cents a bushel last spring.

HOOVER CONSIDERS DATA FOR MEETING TO BE HELD SOON

Washington, Aug. 18.—(AP)—President Hoover went back to work today considering, among other things, the progress of his plans for the meeting next week which he hopes will put the active aid of many prominent men behind a drive for better business.

He was refreshed, tanned, and relaxed by his three-day fishing trip on Chesapeake Bay, which ended yesterday. White House officials thought that after a few hours of work today the executive would go on to his Rapidan, Virginia, camp in the mountains to finish his longest vacation since last year.

Gather Much Data
The president found that during his absence aides had gone ahead gathering data to be presented to the business leaders when they gather here August 26. Already acceptance to join the conference have been received from numerous of the 159 financial and industrial representatives invited.

As he studied the last reports on this meeting, Mr. Hoover was optimistic that he could bring out of it an organized "program of action" along the whole economic front. It was for that reason, he said, that he summoned members of the business committees in each of the twelve federal reserve districts.

Mr. Emerson is still in bed. Information was that he had been "pretty sick" but that improvement was noticeable.

The companies named are the Central Life Insurance company and the Old Colony Life Insurance company.

HOWARD BONHAM GIVEN ANOTHER POSTPONEMENT

Alleged Slayer Saved From Electric Chair For Sixth Time

Chicago, Aug. 18.—(AP)—Howard C. Bonham said in the Cook county jail today that he would not go to the electric chair today and for the sixth time in 10 months was told his execution had been postponed.

Just 14 hours before he was to have been strapped into the electric chair, Judge James J. Kelly granted a stay until August 26 for a sanity hearing. It was the third time Bonham had been saved from death by a few hours.

"I've still got another chance now," said Bonham, pale from months of prison confinement. "Maybe they'll decide I've been punished enough by waiting to be electrocuted and let me off with life in prison."

Bonham, 30 years old, will go before Judge Kelly and a jury next Wednesday for a sanity test. Aliens will argue over his sanity. If the jury finds him insane, he will be sent to Chester prison for life. If not, the execution will take place two days later.

Gov. L. L. Emerson has refused to intervene in the case. Bonham was convicted 13 months ago for the killing on December 13 of Paul Tulipany, manager of the Chicago Hotel Grill in an attempted robbery. Witnesses said he ate a lunch, walked toward Tulipany at the cashier's desk, and shot him suddenly without saving a word.

The original date of execution was October 23, 1931. Appeals to the State Supreme Court and to Governor Emerson, all denied, brought the stays of execution.

CHOOSE SHOUSE TO LEAD MOVE FOR NEW DRIVE

Consider New Amendment for Liquor Control

Washington, Aug. 18.—(AP)—Jouett Shouse has been selected by the association against the prohibition amendment to lead what the chairman of its executive committee calls a drive "to bring about promptly the ratification of the new amendment which Congress will submit."

Pierre S. DuPont, the chairman, announced Shouse's appointment as president in a letter to directors of the association. Shouse, recently chairman of the Democratic national executive committee, succeeds Henry H. Curran, who will become vice chairman of the directors of the association.

DuPont said that because of a "marked change in public sentiment" the association must do "a somewhat different character of work."

Draw Folks Together

That, he said, will be to try to draw together all of those who feel that the eighteenth amendment does not belong in the constitution and that the only wise solution for the vexed liquor problem is to return to the status quo without attempting such restrictions, no matter how desirable their purpose, as to introduce new complications into the situation.

Shouse said in a statement that affairs of the association in the last several years had been handled "with intelligence, discretion and skill" but that "a constructive opportunity of large possibilities now awaits" it. Curran, in another statement, welcomed Shouse to the association.

QUIET REIGNS ON HIGHWAYS THRUOUT IOWA

(Continued From Page One)

Sheriffs of Woodbury and Plymouth counties promised all persons who planned to truck produce here safe escort. Drivers, however, preferred not to invoke the displeasure of the striking neighbors. The hundreds of special deputies were content to prevent open violence.

Consequently no trucks went through the lines today. At the yards here, only 2,000 hogs, 1,000 cattle and 200 sheep were received. Last Thursday 5,834 hogs, 1,291 cattle, and 3,730 sheep were marketed.

Hog prices here fell 25 cents today because, commission men believe, buyers are seeking their supplies at other markets. The strike in other parts of Iowa had no apparent effect on prices or receipts.

A third attempt was made late today by milk distributors and producers to sell to the state's 1,000 dairymen. Producers seek a price of \$2.17 for per hundredweight instead of the present 1.00.

CANNON CHARGES PRESIDENT WITH GROSS SURRENDER

Geneva, Aug. 18.—(AP)—President Hoover was charged today by Bishop James Cannon, Jr., of the Methodist Episcopal Church, South, with having surrendered "to the speakies, bootleggers and nullifiers of the constitution" in his speech of acceptance.

"The outstanding, indeed the overshadowing, part of Hoover's prohibition statement," he said in his criticism, "was the startling declaration by a president of the United States of the helplessness of his administration in its warfare against lawlessness. In its efforts to control what Hoover denominates the 'intolerable speakies and bootlegging' and to prevent 'practical nullification of the constitution.'"

"But is not the president himself responsible if his administration is as helpless as he now so suddenly declares in the very face of that most significant and encouraging official statement recently submitted to congress that consumption of intoxicants had diminished over 60 per cent since 1914?"

Has President Hoover in March, 1929, declared his purpose to enforce vigorously an effective prohibition act and asked congress whatever men and money were necessary congress would have provided them, he said.

PICCARD GAZES ON EARTH FROM HIGH ALTITUDE

(Continued From Page One)

When he made his first ascent last year he almost lost his life, and his wife made him promise that he never would attempt the dangerous feat again. But she reconsidered, and when he and his Belgian assistant took off before sunup this morning she was there to see him off with their children.

The scientific results of this new flight into the heavens remained uncertain. The professor hoped to gather evidence which will assist in determining whether the universe is "dying" or immortal. Such evidence would come from measurements of cosmic rays. But before it is possible to establish anything it will be necessary for his data to be examined and checked.

When Professor Piccard stepped out of the porthole of the balloon gondola he tried to stand erect. But he could not. He swayed, and only the crowd pressing about him kept him from falling. He placed an arm on the shoulder of a man nearby to steady himself.

The difference between the intense cold up there and the intense heat down here, he explained running his hand across his forehead. "It was below zero up there."

The temperature on the ground was just over 100 degrees Fahrenheit.

As the balloon descended from its great height of more than 10 miles, its occupants gradually discarded their heavy clothing, and when Professor Piccard emerged from the sphere in which he had taken a ride across the Alps he wore only trousers, a shirt and shoes.

The aluminum ball was dented slightly when it bumped against the landing field, but neither of the men was injured.

After the scientist had talked by telephone to his wife, assuring her that he was safe and well, officials placed an automobile at his disposal to take him to Desenzano, but he wouldn't go that quickly.

FIRST LADY DIES

Warsaw, Poland, Aug. 18.—(AP)—Mrs. Michalina Moscicki, the first lady of Poland, died today in the presidential residence after a protracted illness. She was 62.

She is survived by her husband, President Ignace Moscicki, two sons in the diplomatic service and a daughter. Official mourning has been declared throughout Poland pending the completion of funeral arrangements.

Mona is in love with BARRY TOWNSEND, rich and socially prominent, who is the business partner of her old friend, STEVE SACARELLI. Barry and Steve operate a diamond mine in South America. Steve, born to poverty, has recently sold a huge diamond called "The Princess of Peru."

When Monica asks the name of the man who wishes to marry her she is told it is Barry Townsend. Not one of the ceremony is about to be performed does she discover the bridegroom is young Barry.

At the end of that time she is to decide whether to become the man's wife in actuality or secure a divorce.

NOW GO ON WITH THE STORY

CHAPTER XXVI

SPRING turned to summer. Mona, after a week at the Ritz with Lottie, moved into the newly decorated suite of the Townsend house on 63rd street. Dad left the hospital and returned to the Third Avenue flat. Finally as June ended Mona packed her father, mother and Kitty off to Atlantic City.

In July she and Lottie set off to Maine for a vacation. "It will be dull," Mona warned. "Remember I have the Townsend dignity to uphold. No flirtations, no gay parties. Not even dancing!"

"I'm not so interested in parties," Lottie confessed. In a lower tone she touched upon a forbidden subject. "Have you heard from the boys?"

It was early evening and they were in Mona's sitting room. Lottie, lovely and ingenious looking, as always, was seated on a chaise longue. Mona, in a fragile white gown and wearing Steve's diamonds, moved about aimlessly, considering what baggage to take on the trip.

"Mother hears from Bud. He's well and says the others are. You know a boy's letters!" Mona sighed.

"Where's the safe?"

"If you know so much about the household," Mona began, "then you know I haven't any jewels to speak of. You know."

He grinned broadly. "Give me the ones you don't talk about then." He removed a silver cigarette case from his pocket and flipped it open. "Smoke?"

The girls declined. The stranger selected a cigarette, lit it and puffed as if he were there for the evening.

But he was in rather more of a hurry than had at first appeared. "Now then," he said briskly, "where's the safe?"

"The new machinery is installed and the mine is booming." Mona was not yet accustomed to having a maid wait on her. She was busily looking over lingerie, smoothing gloves, examining hose. Lottie watched silently, knowing it was useless to remind her friend that the maid could do all this tomorrow in a trice.

After a while Lottie said, "Has Mr. Townsend shown you the Townsend jewels yet?"

Mona looked up from the stocking box. Her hand strayed to the diamond chain about her throat. "I have these but of course they're not Townsend jewels. I have my emerald. Mrs. Faxon says he selected an emerald necklace for my birthday but he's saving it for me until the opera opens. She says he wants to see me go down the aisle in a black velvet gown and emeralds."

"There's a movement at the window. Both girls seemed to turn at the sound. They were alone in the house except for the servants on the top floor. Mona, as always, had dismissed her maid because it seemed so silly to keep her about just to lay out a nightgown."

The windows looked out on a tiny, iron-fenced balcony. The curtains were moving and, instantly alert, the two girls held their breath.

The dowling silk parted and a new man, young rather and not bad looking, appeared.

"Don't get scared! Don't get scared!" he said. "I ain't here to hurt anybody. I'm here to get the Townsend jewels."

His tone was almost friendly. "And don't try ringing for a servant, either," he advised, taking a step nearer. "Nobody will answer. They're all out." The young man was entirely at his ease. Inviting Mona to be seated, he took an easy chair.

"If you know so much about the household," Mona began, "then you know I haven't any jewels to speak of. You know."

He grinned broadly. "Give me the ones you don't talk about then." He removed a silver cigarette case from his pocket and flipped it open. "Smoke?"

New York, Aug. 18.—(AP)—The stock market perked up somewhat in the last hour today, after receiving encouragement from wheat.

The late rise cancelled most of an early afternoon sag in 1 to 3 points in general leaders. It started in the farm implements as the wheat market finally bulged up 1 cent a bushel, and in the steel declines, rails were given a whirl. This may have been a belated response to strength that bankers showed in an anticipation of developments at the meeting of carrier heads in Chicago, at which warms among other things were said for discussion.

The late rise cancelled most of an early afternoon sag in 1 to 3 points in general leaders. It started in the farm implements as the wheat market finally bulged up 1 cent a bushel, and in the steel declines, rails were given a whirl. This may have been a belated response to strength that bankers showed in an anticipation of developments at the meeting of carrier heads in Chicago, at which warms among other things were said for discussion.

Next development of a character to influence the list were meagre, although advance reports that bankers were putting the finishing touches on the proposed bill to finance the movement of commodities may have inspired some of the buying in wheat. Although bankers have made it clear that there was no intention of participating in a movement to bid up prices, cotton also came ahead, closing up to 5 cents a bale higher.

Some of the non-ferrous metals turned heavy for no apparent reason other than that possibly that had been a response to strength previously. American Smelting dropped 1/2 cent, closed at 1 1/2. National Lead had a 1/2 cent rise, closing at 1 1/2. Cash corn was steady to 1 lower. Receipts were 20 cars.

Cash oats were steady. Receipts were 4 cars.

HOG PRICES ARE
10 CENTS HIGHER

Chicago, Aug. 18.—(AP)—Traders were able today to check the downward trend in hog prices, and the market closed active with prices steady to 10 cents higher than yesterday's finish. Demand from local killers broadened when eastern buyers became active.

In contrast to yesterday's pressure by killers on all grades of fed cattle, they were quite content today to take today's meager supply freely without demanding further price concessions. The market was slow at the close, but steady to strong with instances a shade higher all through the steer and yearling list as compared with yesterday's uneven decline. Light hogs and mixed yearlings were strong to 15 cents higher.

Absence of a brisk outside demand for fat lambs gave local operators an opening to demand lower prices, and even the better grade lambs closed mostly 15-25 cents lower. A few choice natives held up.

NEW YORK BONDS
MOVE UPWARD

By Victory Eubank.
Associated Press Financial Writer.

New York, Aug. 18.—(AP)—Demand for both high grade and speculative bonds continued today and prices moved to higher levels despite realizing by traders who were unable to resist cashing in substantial profits.

The turnover was slightly larger than that of yesterday, sales totaling \$12,831,000, par value, and the average for 60 corporate loans stepped up five-tenths of a point.

The day's best gains were recorded by the railroads, a number of which advanced from 1 to 3 or more points. There was no especially encouraging news to spur on the carriers. Some of the roads reported a mild improvement in freight traffic and there was heavy buying of St. Louis-San Francisco bonds on the belief that the company's reorganization plans would receive the approval of the road's stock and bond holders.

The utilities backed and filled, with the majority retaining moderate gains.

Moderate gains were registered by all United States government obligations.

RADIO TEAM PAYS VISIT TO CITY

"Bill and Bob," famous radio team, and their traveling radio station WJAN, rolled into Jacksonville yesterday afternoon for a stay of several hours. While in the city they presented a varied program from their portable address system and radio station. The arrangements for their appearance here was made through the courtesy of the Shell Petroleum Corporation, their sponsors.

Having broadcast their merry programs over 318 stations throughout the United States and having travelled more than 55,000 miles in their mobile broadcasting station, "Bill and Bob" claim to have a record of radio.

Their 500 odd personal appearances at theatres, civic gatherings and other events, establishes a third record for the popular pair.

Known from coast-to-coast as the Shell Petroleum Twins, they have a larger localized appeal following than any other entertainers of the ether. Their portable station is mounted in a high-powered Cord automobile and was built at the cost of approximately \$10,000. Bob, who is a radio operator as well as entertainer, designed the traveling station.

In broadcasting their programs, Bob acts as master of ceremonies and does a group of radio imitations. Bill agitates the piano keys and sings. They will always have a good note. Among his compositions are "Evelyn and Elevator Blues."

"Bill and Bob" began their travels from St. Louis, which city serves as their general headquarters. Their home station in that city is KWK.
